

Café Harmony Sales Analysis

Presented by: Afolayan Olajide Michael

BUSINESS OVERVIEW

Café Harmony is a new and exciting virtual café chain! The café specializes in offering a variety of drinks, snacks, and light meals to customers. Over the past year, Café Harmony has seen impressive growth but now faces new challenges as the company is scaling to meet customer demand. The café has multiple locations across the city, each with its own performance metrics and unique customer preferences.

Business Problem

Café Harmony, experiencing rapid growth, aims to enhance operational efficiency and customer experience by addressing these key questions:

- ✓ **What is the current sales trend?**
- ✓ **Which menu items perform best across locations?**
- ✓ **What customer profile gender spends the most?**
- ✓ **How can stock management be improved to prevent shortages and reduce overstock of popular items?**
- ✓ **Are there any location or employee performance issues needing attention?**

Aim of the Project

To assist **Café Harmony** in making data-driven decisions by analyzing the provided datasets using **Microsoft Excel**, addressing key business questions, and presenting findings in a clear, visually appealing dashboard.

This involves ensuring all datasets are cleaned and prepared for analysis.

This involves ensuring all datasets are cleaned and prepared for analysis.

Data Description

The analysis is based on an Excel file containing the following datasets

Sales Data

Details of sales transactions, including items sold, prices, quantities, and sales dates across various locations.

Customer Data

Information on customers, such as age, gender, location, and preferred drink items.

Employee Data

Details about employees, including name, role, salary, and location.

Stock Data

Inventory records of raw materials and supplies required for preparing café menu items.

Feedback Data

Customer satisfaction ratings and comments collected after each purchase.

Recommendations

Improve Customer Experience

Improve service quality or waiting time.

Train lower performing employees based on customer interactions.

Restock Critical Inventory

Focus on Milk, Muffin Mix, Iced Tea Bags immediately.

Create Product Bundles

Combine **top items** Muffin + Coffee into combos to boost average order value.

Recommendations

Boost Q4 Sales with Holiday Campaigns

Q4 Oct-Dec underperformed. Launch holiday promos, gift packages, and seasonal items.

Empower Top Employees

Offer incentives for top performers like Elizabeth & David.
Consider assigning them to train others or help in low-performing locations.
